

CONTEXT

ISO 9001 ensures requirements are met; ISO 9004 takes the organization to the next level: managing sustained long-term success. It adds maturity self-assessment and strategic vision, and is implemented on an existing 9001.

WHAT THE STANDARD REQUIRES

- A structured self-assessment of management maturity
- Identification and management of all interested parties
- Alignment of strategy with operations
- Management of the organization's knowledge
- A continuous improvement and innovation approach
- An orientation to results sustained over time

IMPLEMENTATION PHASES

- | | | |
|---|---|------|
| 1 | Self-assessment
Maturity diagnosis against 9004 | 3 wk |
| 2 | Improvement plan
Strategic prioritization of gaps | 3 wk |
| 3 | Implementation
Roll-out of improvements and monitoring | 5 wk |
| 4 | Review
Results evaluation and adjustment | 2 wk |

Estimated timeline: 4-6 months

RETURN FOR YOUR ORGANIZATION

- ✓ A maturity leap: from meeting requirements to managing success
- ✓ Strategic vision integrated into daily management
- ✓ Differentiation through excellence over competitors
- ✓ Reduced cost by building on the existing 9001

FREQUENTLY ASKED QUESTIONS

Is it certifiable like 9001?

9004 is a guide to sustained success; its value lies in maturity self-assessment and strategic improvement.

Do I need to have 9001?

It's the natural starting point: 9004 builds on the 9001 structure.

Who benefits most?

Already-mature organizations that want a qualitative leap in their management.
